LIST NUMBERS CALLED MOST FREQUENTLY, OR NOT IN BOOK

NAME NUMBER

In case of fire, call "Fire Department" and remain on the line until you have given the location of the fire. On calls for the police, ask the operator for "Police Department" giving your name and telephone number.

GENERAL INFORMATION

FOR THE GUIDANCE OF TELEPHONE USERS

Good service depends largely upon the measure of co-operation afforded the Telephone Company by the public. The observance of the following suggestions and instructions will greatly facilitate the successful operation of the service from all standpoints.

USE OF THE TELEPHONE

Speak directly into the mouthpiece of the telephone with your lips close to it.

Speak slowly and distinctly in your ordinary tone of voice.

Consult the telephone directory to obtain the number with which you desire to be connected.

If the number is not found in the directory, ask for "Information" and when obtained make a memorandum in book for future reference.

Telephone numbers should be given to the operator as shown in the following examples:

127—say "One (pause) Two Seven."
44-J—say "Four Four (pause) J."
100—say "One Hundred."

Listen to the operator's repetition of the number and acknowledge it, or if the operator does not repeat the number correctly, give the number again.

After calling a number, remain with the receiver at your ear until the called number answers or until a report is received from the operator as "(called number) does not answer" or "The line is busy," etc. If the operator reports, "The line is busy," it does not necessarily mean that the particular telephone called is busy, but may indicate that some telephone on the same line is in use.

If necessary to recall the operator for any reason, move the receiver hook slowly up and down until the operator answers. Do not move the hook rapidly.

When your bell rings, answer it promptly for if a number called does not answer within a reasonable time the operator will report, "(called number) does not answer." Answering by name is preferable to answering by number. Do not remove the receiver from the hook until the bell has stopped ringing.

When you are through talking, say "Goodbye," so that the other party may know the conversation is finished, then replace the receiver on the hook.

TOLL SERVICE

STATION TO STATION CALLS—A Station-to-Station call is one on which the calling party does not specify a particular person to be reached, but gives only the number of the telephone station desired, or the name or address under which the telephone is listed. A charge is made if connection is completed to the called number. The charges for Station-to-Station calls cannot be reversed, that is, collected from the subscriber at the called station.

To make a Station-to-Station call, ask for "Long Distance," and when "Long Distance" answers give your telephone number followed by the name of the exchange and telephone number desired. Listen for the operator to repeat the details of your call and remain with the receiver at your ear until the operator indicates that you may hang up the receiver. Station-to-Station calls will also be accepted by name or address under which the telephone is listed.

PERSON-TO-PERSON CALLS—A Person-to-Person call is one on which the calling party specifies a particular person to be reached at the called place. Under certain conditions, described hereinafter under "Report Charges," a partial charge will be made where it is impossible to establish communication on a Person-to-Person call.

To make a Person-to-Person call, ask for "Long Distance," and when "Long Distance" answers give the details of your call in the following order:

1. The telephone number from which the call is made and the name of the person desiring to talk.
2. The name of the city or town (and state) in which the desired person is located.
3. The telephone number desired, if known; if the number is not known, the firm name or the name or street address under which the telephone is listed.
4. The name of the person with whom you wish to speak and the name of the alternate person, if you are willing to talk with any one else in case the person desired cannot be reached.

Listen for the operator to repeat the details of your call and remain with the receiver at your ear until she indicates that you may hang up the receiver.

MESSENGER CALLS—When necessary, a messenger at the distant point will be sent to call the specified person to a telephone. The exact amount paid out for such messenger service will be charged in addition to the charge for the telephone conversation. The messenger service charge must be guaranteed by the calling party and must be paid even if the desired conversation is not held.

APPOINTMENT CALLS—An Appointment Call is a Person-to-Person call on which communication is to be established at a specified time.

COLLECT CALLS—Upon request of the calling party, the charges on a Person-toPerson, Appointment or Messenger call including messenger charges, if any, will be collected at the called telephone, if such charges are accepted by the called party. Request to have the charges collected in this way should be made when the call is given to the long distance operator. Collect calls are not accepted in connection with Station-to-Station service.

REPORTS—In case there is delay in completing a Person-to-Person call, the operator will advise the calling party regarding the cause of the delay. If an additional report is desired, it can be secured by calling "Long Distance" and requesting a report. A Report Charge, of approximately one-fourth the initial Station-to-Station rate between the points involved, is made on uncompleted Person-to-Person calls under the conditions outlined hereinafter, in the section headed "Report Charges."

REQUEST FOR CHARGES—If a person desires to be advised at the conclusion of his conversation of the amount of the charges on his call, time will be saved by so notifying the long distance operator at the time the call is placed. If the request for such information is not made until the completion of conversation, unavoidable delay may result while the operator ascertains the rate and computes the charge.

RATES AND CHARGES FOR TOLL SERVICE

The rate for a Station-to-Station call is the fundamental rate upon which the rates for other classes of service are based.

The rate for a completed Person-to-Person call is about one-fourth greater than the Station-to-Station rate. The Person-to-Person rate is computed on the Station-to-Station rate between the points involved whether the call is made during the day, evening or night, and the minimum charge is 15c.

The rate for a completed Appointment or Messenger call is about one-half greater than the Station-to-Station rate. The rate for Appointment or Messenger calls is computed on the Station-to-Station rate between the points involved whether the call is made during the day, evening or night and the minimum charge is 20c, plus the messenger charges in the case of a Messenger.

REPORT CHARGES—A Report charge will be made on Person-to-

Person calls, including Messenger and Appointment calls, which cannot be completed for the following reasons:

1. When the telephone number or address of the called party is unknown and the report is given the calling party within one hour that the called party cannot be located.
2. If the called party refuses to talk.
3. If the called party is not available at the called station and a report to that effect is given the calling station within one hour.
4. If the call cannot be completed due to absence of the calling party from the calling station or failure of the calling station to respond to the efforts of the Company to complete the call, provided the connection is ready for completion within one hour.
5. If the calling party refuses to talk when the call is ready for completion.
6. If it is found that the called party is not accessible by telephone at the point where he is located and such a report is given the calling party within one hour.
7. If a Collect call is not completed because the called station or called party refuses to accept the charge.
8. If an Appointment call is not completed after arrangements have been made for the appointment.
9. If a Messenger call is not completed after arrangements have been made to notify the called party to come to a telephone.

"Within one hour," as herein used, means within one hour from the time the call is given to "Long Distance."

The Report Charge is compensation for the operating work performed and is approximately one-fourth the initial Station-to-Station rate between the points involved. The minimum Report Charge is 5c and the maximum $2. A Report Charge, in addition to the charge for the call, is not made provided the call is completed on the day on which it is filed.

EVENING AND NIGHT RATES—Reduced toll rates known as Evening Rates and Night Rates, applicable to Station-toStation service only, are in effect between the hours of 8:30 p. m. and 4:30 a. m. The minimum Evening rate and Night rate is 25c. Day rates apply on calls made in the evening or at night when the Station-to-Station Day rate between the points involved is less than 25c. Evening and Night rates do not apply to Person-to-Person calls, including Appointment and Messenger calls, nor to Collect calls.

Between 8:30 p. m. and 12 Midnight, the Station-to-Station rates are approximately one-half of the day rates and are known as "Evening Rates."

Between 12 Midnight and 4:30 a. m., the Station-to-Station rates are approximately one-fourth of the day rates and are known as "Night Rates."

In applying Evening rates or Night rates the time at the originating point, when connection is established, shall govern.

TELEGRAMS BY TELEPHONE

To facilitate sending telegrams and cablegrams, patrons should call by name:—

For Interstate Telegraph Company .....call "Telegraph Operator."
For Western Union Telegraph Company ..... call "Western Union."

Patrons calling telegraph companies for any other purpose than to send a telegram or cablegram should call by number in the usual manner.

COMPLAINTS

Operators are required to be courteous in their dealings with subscribers, but are not permitted to engage in conversation beyond that necessary to complete connections.

The Company appreciates prompt reports of specific instances of unsatisfactory service. Such reports should be made promptly by telephone, so that they may receive immediate attention.

Call "Complaint Department" when it is necessary to report telephone out-of-order or other unsatisfactory service.

NO REBATE OR RENTAL FOR INTERRUPTION OF SERVICE WILL BE ALLOWED UNTIL AFTER TWENTY-FOUR (24) HOURS WRITTEN NOTICE.

ORDER FOR TELEPHONE SERVICE

Whenever any change in telephone service is desired, the Company should be notified at least seven days in advance. For orders for new service, changes in service, changes in directory listings, etc., call "Local Six."

When vacating premises be sure to advise the Company sufficiently in advance to permit of your account being closed promptly.

FOR INFORMATION REGARDING BILLS RENDERED

Call "Local Six."

TELEPHONE DIRECTORIES

This Directory is the property of the Interstate Telegraph Company and is provided for the sole and exclusive use of its patrons, who are requested to maintain it in its original condition, usual wear and tear excepted. The Company assumes no liability because of errors or omissions.

Extra copies of this Directory may be obtained at the Company's office or by mail for twenty-five cents per copy.

INFORMATION

INSTRUCTIONS TO BIG PINE, INDEPENDENCE AND LONE PINE AUTOMATIC EXCHANGE SUBSCRIBERS.

DIALING—Before dialing, party line subscribers should take down the receiver and find out whether their line is in use.

Leave receiver off hook while dialing.

To call the desired number insert the finger in the opening on the dial in front of the lefthand digit of the number wanted and move the dial around to the right until the finger rests against the finger stop. Release the dial and when it has returned to place insert the finger in the opening opposite the right hand digit of the called number and rotate the dial as above.

For example, in calling the number 29, the calling party will first place his finger in the opening on the dial in front of the number 2 and then pull the dial around to the right until the finger touches the finger stop after which he releases it. He then inserts his finger in the opening opposite the number 9 and rotates the dial as before. This connects him with number 29 if that line is not busy.

LINE BUSY—If the line is busy an intermittent buzz will be heard on the line which is known as the "busy tone" and indicates that someone else is using the called line.

RINGING—To ring the called subscriber's bell it is nesessary to press the small push button on the front of the wall telephone at the right, and on the base of the stand or under receiver hook on desk stands.

RINGING—If the called subscriber's number is a main line number, that is, if his line number is not followed by a hyphen and a number, his call is one ring.

For example, 29, 43 and 34 are main line numbers.

RINGING ON PARTY LINES—If the called number is followed by a hyphen and a number, it is necessary to ring a code ring in order to get the right party.

For example, if the number is 16-3, it is necessary to ring three short rings to get the right party. The number of rings is indicated by the number following the hyphen.

On lines where the ring is indicated by the letter F followed by a number, if a single figure follows the letter F it indicates the number of short rings while if the number following the F is made up of two figures the first figure indicates the number of long rings and the second figure indicates the number of short rings.

For example, if the called number is 13F-4 the ring is four short rings, while if the called number is 13F-21 the ring is two long rings and one short ring.

CALLING ANOTHER PARTY—When you are through talking with one party and wish to call another it is necessary to hang up the receiver and start over again. The receiver need be on the hook only a moment. One second is sufficient to restore the apparatus to its original condition.

LONG DISTANCE—For Long Distance dial number 01 and when the operator answers give her your call in the usual way. This operator will also quote toll rates and give other information regarding toll service.

TELEGRAMS—If you wish to send a telegram or have been notified that there is a telegram for you dial 01 and ask for "Interstate Telegraph." You will then be connected with the telegraph operator.

INFORMATION—Dial number 01 and ask for "Information" if information is wanted in regard to new telephones or telephones which have been disconnected.

MISCELLANEOUS INFORMATION NOT GIVEN OUT—The time of the day and other miscellaneous information not pertaining to the business of the company cannot be furnished by the Information Operator.

TROUBLE—In case of trouble on your line or instrument call number 01 from the nearest available telephone and ask for the "Complaint Operator," reporting your trouble to her.

THE INYO REGISTER

Having a consistent record for more than forty years of conservatism, reliability, progressiveness, and giving the best service justified by conditions, the Register is admittedly the leading paper of eastern California. Subscription $2.50 per year. W. A. Chalfant, editor and publisher, Bishop, Cal.

INFORMATION

INSTRUCTIONS TO BARSTOW AND VICTORVILLE AUTOMATIC EXCHANGE SUBSCRIBERS

FIRST OBTAIN NUMBER DESIRED FROM DIRECTORY. If the person you wish to call is not listed, dial "Information" (see number below) who will give you the number desired. Remove receiver from hook, being careful not to "jiggle" the hook. If you "jiggle" the hook in removing the receiver, or while dialing, it may result in a wrong number. If the line is clear and not in use by other subscribers on your line, a "dial tone" will be heard before dialing is begun.

HOW TO DIAL. To dial, place your finger firmly into the hole in the dial associated with the first number of the telephone number you are calling, and pull the dial around until your finger rests firmly against the finger stop. Then remove your finger from the hole and let the dial return until it stops in the normal position. Repeat the operation for each of the other numbers in each case inserting the finger in the hole associated with the correct number. Do not touch the dial while it is returning because any attempt to hasten or retard its motion will interfere with the operation of the equipment and may result in a wrong number.

IF AN ERROR IN DIALING IS MADE, return the receiver to the hook for a few seconds. remove the receiver, and dial the complete number again.

LINE BUSY. If the line you are calling is busy, an intermittent buzz will be heard on the line which indicate that someone else is using the line. In such a case, the receiver should be returned to the hook and the number tried again, after a few minutes.

TO CALL A PARTY ON YOUR OWN LINE, that is, a subscriber whose number is the same as yours, excepting the last digit, BARSTOW subscribers first dial 07, then dial the last digit of your number, then the last digit of the subscriber you are calling; VICTORVILLE subscribers first dial 9, then the last digit of your number, then the last digit of the subscriber you are calling.

After dialing, hang the receiver on the hook, which will cause your telephone to start ringing. As soon as your bell stops ringing it indicates that the called party has answered and the receiver may then be removed from the hook and conversation started. If the bell continues to ring for some length of time after hanging up, it means the called party does not answer, and the connection should be released by lifting the receiver off the hook for a few seconds.

ALWAYS REMOVE RECEIVER BEFORE DIALING.

Barstow For INFORMATION and COMPLAINT calls dial 04
For LONG DISTANCE dial 01.

Victorville For Information and COMPLAINT calls dial 6. For LONG DISTANCE calls dial 0.
